Badan/Lembaga Publikasi Ilmiah?

- UGM → Badan Penerbit dan Publikasi (BPP)
- UMS → Lembaga Pengembangan Publikasi Ilmiah dan Buku Ajar (LPPI)
- UAD → Lembaga Pemberdayaan Publikasi Ilmiah (LPPI) ?

Langkah yg perlu dilakukan:

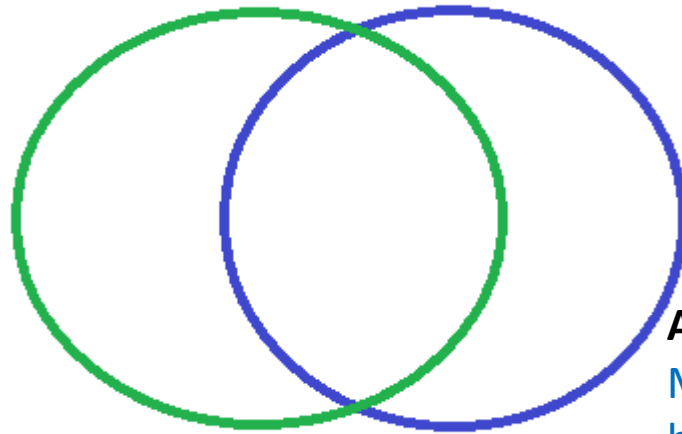

- Memilih orang-orang yang tepat (sebagai editors & non-editorial)
- Membangun komitmen (*janji pada diri kita sendiri untuk melakukan sesuatu*) & Dedikasi (*pengorbanan/pengabdian tenaga, pikiran, dan waktu demi keberhasilan*) Editors, dengan memanusiakan manusia (sesuai kebutuhan dasar manusia):
 - Biologis
 - Psikologis
 - Sosial
 - Spiritual

Kesadaran?

- Editor tdk dianggap penting/dibutuhkan di Univ?
- Editor bukan posisi elit/bergengsi? Diundang ktk acr penting: wisuda, penerimaan tamu LN, diposisikan setara Kajar/Dekan?
- Kantor umumnya seadanya?

Kepentingan **Publisher** vs **Authors**

Publisher:

Mempublikasi artikel yang berkualitas

Authors:

Mempublikasi artikel pada jurnal yang bereputasi

- Terakreditasi DIKTI
- Terindeks Scopus (Elsevier)
- Terindeks Web of Science (Thomson Reuters)

Alasan **Authors** untuk publikasi?

Our goal → Scopus & Web of Science

- Thomson Reuters Web of Science (WoS) and SciVerse Scopus are the most widespread **databases** on different scientific fields which are frequently used for searching the literature (Guz & Rushchitsky, 2009)
- The competition between **WOS** and **Scopus** databases is **intense** “**kompetisi yang intens, kuat, tajam ..**”. This competition has led to improvements in the services offered by them.
- **WoS**: <http://www.webofknowledge.com> - *Journal Citation Reports* → *Impact Factor, Eigenfactor and Article Influence Score (AIS)*
- **SCOPUS**: SCOPUS.com - *SCImago* (www.scimagojr.com) → SNIP, SJR, IPP

	Overlap Titles	Unique Titles	Total Titles
<u>Scopus</u>	<u>11377</u>	<u>8432</u>	<u>19809</u>
<u>Web of Science</u>	<u>11377</u>	<u>934</u>	<u>12311</u>

<http://adat.crl.edu>

Introduction

- Abstracting & Indexing (A&I)
- Databases
- Platforms
- Informasi “abstracting & indexing” di beberapa jurnal

Indexing **Databases**: Bibliographic, Fulltext & Platform

Bibliographic Databases:

- [BIOSIS Previews \(1969 - present\)](#)
- [British Education Index](#)
- [British Humanities Index \(BHI\)](#)
- [Compendex](#)
- [EconLit](#)
- [EMBASE](#)
- [GEOBASE](#)
- [Inspec](#)
- [International Bibliography of the Social Sciences \(IBSS\)](#)
- [MLA International Bibliography](#)
- **Scopus**
- [Social Care Online](#)
- [Sociological Abstracts](#)
- **Web of Science**
- [Zetoc](#)

Fulltext Databases:

- [ABI/INFORM](#)
- [Academic Onefile](#)
- [Academic Search Complete](#)
- [Academic Search Premier](#)
- [Business Source Complete](#)
- [Business Source Premier](#)
- [General Onefile](#)
- [SocINDEX with Full Text](#)
- [Wilson OmniFile Full Text, Mega Edition](#)

A **bibliographic database** is a database of [bibliographic records](#), an organized digital collection of references to published literature, including journal and newspaper articles, conference proceedings, reports, government and legal publications, patents, books, etc
(http://en.wikipedia.org/wiki/Bibliographic_database)

Database Platforms

- [CSA Illumina](#)
- [DataStar](#)
- [EBSCOHost](#)
- **Engineering Village**
- [FirstSearch](#)
- **ISI Web of Knowledge**
- [Informit](#)
- [ProQuest](#)
- [SilverPlatter](#)
- [WilsonWeb](#)

Example Database Platform

ISI Web of Knowledge :

- **Web of Science**
- Current Contents Connect
- BIOSIS Previews
- Biological Abstracts
- Zoological Record
- ISI Proceedings
- Derwent Innovations Index
- **Inspec**
- CAB Abstracts
- Food Science & Technology Abstracts
- MEDLINE
- Web Citation Index
- Journal Citation Reports
- Journal Use Reports
- Essential Science Indicators

Engineering Village:

- Compendex
- Engineering Index
- **Inspec**
- Inspec Archive
- NTIS
- Geobase
- GeoRef
- Ei Patents
- **Referex (Electronic Books)**
- **Chimica**
- CBNB
- EnCompassLIT & EnCompassPAT

List of academic databases and search engines

List of academic databases and search engines

This page contains a representative list of major databases and search engines useful in an academic setting for finding and accessing articles in [academic journals](#), [repositories](#), archives, or other collections of [scientific](#) and [other](#) articles. As the distinction between a [database](#) and a [search engine](#) is unclear for these complex [document retrieval systems](#), see:

- the [general list of search engines](#) for all-purpose search engines that can be used for academic purposes
- [bibliographic databases](#) for information about databases giving bibliographic information about finding books and journal articles.

Note that "free" or "subscription" can refer both to the availability of the database or of the journal articles included. This has been indicated as precisely as possible in the lists below.

This is an incomplete list that may never be able to satisfy particular standards for completeness. You can help by expanding it with entries that are reliably sourced.

Name	Discipline(s)	Description	Access Cost	Provider(s)
Academic Search	Multidisciplinary	Several versions: Complete, Elite, Premier, and Alumni Edition ^[1]	Subscription	EBSCO Publishing ^[2]
AgeLine	Sociology, Gerontology	Includes information on aging-related topics, including economics , public health and policy .	Subscription	EBSCO Publishing ^[6]
AGRICOLA: Agricultural Online Access	Agriculture		Free & Subscription	Produced by the United States National Agricultural Library. Free access provided by NAL. ^[7] Subscription access provided by ProQuest, ^[8] OVID. ^[9]
Science Accelerator	Multidisciplinary	A gateway to results of DOE research and development and major R&D accomplishments of interest to DOE.	Free	United States Department of Energy, Office of Scientific and Technical Information. ^[105]
Science Citation Index	Science (General)	Part of Web of Science	Subscription	Thomson Reuters ^[106]
ScienceDirect	Multidisciplinary		Subscription	Elsevier ^[107]
Scopus	Multidisciplinary	Scopus is the world's largest abstract and citation database of peer-reviewed research literature. It contains over 20,500 titles from more than 5,000 international publishers. While it is a subscription product, authors can review and update their profiles via ORCID.org or by first searching for their profile at the free Scopus author lookup page r6 .	Subscription	Elsevier ^[108]
SearchTeam	Multidisciplinary	Students search together collaboratively for scholarly articles and resources	Free	Zakta r6 ^[109]
Social Science Citation Index	Social science	Part of Web of Science	Subscription	Thomson Reuters ^[110]
Web of Knowledge	Multidisciplinary	Includes other products, such as Web of Science , Biological Abstracts & The Zoological Record	Subscription	Thomson Reuters ^[118]
Web of Science	Science (General)	Includes other products, such as Social Science Citation Index & Science Citation Index .	Subscription	Thomson Reuters ^[119]
WestLaw	Law (General)		Subscription	Thomson Reuters
WorldCat	Multidisciplinary	Unified catalog of member libraries' catalogs	Free & Subscription	OCLC ^[120]

The screenshot shows the Elsevier website interface for the journal 'Renewable & Sustainable Energy Reviews'. At the top, the Elsevier logo is on the left, followed by a search bar with the text 'Type here to search on Elsevier.com', an 'Advanced search' link, and social media icons for Facebook, LinkedIn, and Twitter. Below the navigation bar, the journal's cover image is displayed on the left, featuring a globe and renewable energy symbols, with a 'Supports Open Access' badge. The main content area includes the journal title, a description of its focus on renewable and sustainable energy, and links for 'View full aims and scope' and 'View full editorial board'. The Editor-in-Chief is listed as L. Kazmerski. To the right of the journal information is a vertical menu with buttons for 'Guide for Authors', 'Submit Your Paper', 'Track Your Paper', 'Order Journal', and 'View Articles'. Below the journal information, there are three sections: 'Journal Metrics' (highlighted with a red border), 'Journal Insights', and 'Call for Papers'. The 'Journal Metrics' section lists Scopus and WoS metrics. The 'Journal Insights' section features a diagram with icons for Impact, Authors, and Speed. The 'Call for Papers' section highlights a special issue on sustainable production and consumption in the UAE. At the bottom, there is a 'Recent Open Access' section with a ScienceDirect logo and a link to a cross-sectional review.

Impact Factor for the Journal of Materials Science is now over 2.305!

Informasi tentang **abstracting & indexing** di sebuah jurnal (published by **Taylor & Francis**)

The screenshot displays the Taylor & Francis Online website interface. At the top, there is a navigation bar with links for 'Register', 'Sign in', 'Mobile', 'Librarians', 'Authors & Editors', and 'Societies'. Below this is a secondary navigation bar with 'Browse', 'Products', 'Open access', 'Shortlist', and 'Cart'. The main content area features a search bar with a 'Search' button and a link to 'Advanced and citation search'. The breadcrumb trail reads 'Home > List of Issues > Table of Contents'. On the left, a sidebar menu includes 'Browse journal', 'View all volumes and issues', 'Current issue', 'Latest articles', 'Most read articles', 'Most cited articles', and 'Authors and submissions'. The main content area is titled 'Volume 35, Issue 12, 2014' and features the journal cover for 'Journal of Dispersion Science and Technology'. The cover includes the Taylor & Francis logo, 'OPEN SELECT' badge, and 'peer review Integrity' badge. Below the cover, there are links for 'Sample copy', 'Alert me', and 'Purchase issue'. The ISSN is listed as 0193-2691 (Print) and 1532-2351 (Online). A highlighted box indicates the 'Publication Frequency' is '12 issues per year'. On the right, a 'Journal news' section is highlighted with a red border, containing the text: '2013 Impact Factor: 0.705, ©2014 Thomson Reuters, 2013 Journal Citation Reports®'. Below this, there are sections for 'Most read' and 'Most cited' articles, with the most cited article being 'Surfactants Used in Food Industry: A Review' by Iva Kralova, et al. (Volume 30, Issue 9, 2009).

Aims & Scope

The *IEEE Transactions on Computers* is a monthly publication with a wide distribution to researchers, developers, technical managers, and educators in the computer field. It publishes papers, brief contributions, and comments on research in areas of current interest to the

Sharing: Pengelolaan Jurnal secara Profesional

Bagaimana memulai Pengelolaan Jurnal?

1. Website?
2. Standing Editor?
3. Penyebaran informasi dan Call for Papers?
4. Reviewers?
5. Lain2: Indexing, CrossRef,

Artikel-artikel berkualitas

1. Website

- **Website** bagi sebuah jurnal adalah sangat penting dan menjadi salah satu persyaratan penting untuk pengajuan akreditasi DIKTI dan pengindeksan (DOAJ, SCOPUS dll)
- Kita bisa mengembangkan website sekaligus sebagai sistem manajemen online, ataupun dengan sistem yang terpisah

Manajemen Jurnal online

Ada banyak perangkat lunak “sistem manajemen jurnal online”, baik yang free maupun yang berbayar.

- Berbayar, contoh: [ScholarOne Manuscripts](#)
- Gratis, contoh: [Open Journal System \(OJS\)](#), [DPubS](#), [OpenACS](#), [Ambra open platform for journal publishing \(PLOS ONE\)](#)

Saat ini [OJS](#) dari Public Knowledge Project (PKP, <http://pkp.sfu.ca/ojs/>) banyak digunakan di Indonesia, dan bahkan DIKTI sudah memberikan petunjuk teknis-nya.

PKP is a multi-university initiative developing (free) open source software and conducting research to improve the quality and reach of scholarly publishing.

Public Knowledge Project > Open Journal Systems

Open Journal Systems

"Scholars need the means to launch a new generation of journals committed to open access, and to help existing journals that elect to make the transition to open access..."

Budapest Open Access Initiative, 2002

Open Journal Systems (OJS) is a journal management and publishing system that has been developed by the Public Knowledge Project through its federally funded efforts to expand and improve access to research.

OJS Features

1. OJS is installed locally and locally controlled.
2. Editors configure requirements, sections, review process, etc.
3. Online submission and management of all content.
4. Subscription module with delayed open access options.

[OJS Download](#)

Do you want to install Open Journal Systems on your server? Installing this program will allow you to host journals for you and your colleagues.

What is OpenACS

OpenACS is a toolkit for building scalable, community-oriented web applications. OpenACS is the foundation for many products and websites, including the .LRN (pronounced "dot learn") e-learning platform.

OpenACS is open source and is available under the GNU General Public License.

Download Now!

Version 5.8.0 (openacs-5.8.0.tgz)

News

OpenACS 5.8.0 final released Aug 30, 2013

We are proud to announce the release of OpenACS 5.8.0.

The new release differs from OpenACS 5.7.0 in the following points:

- Compatibility with PostgreSQL 9.2:
The new version installs without any need for special parameter settings in new use e.g. shared or packaged PostgreSQL installations.
- Compatibility with NaviServer 4.99.5 or newer
- Various performance and scalability improvements
- Various bug fixes
- Altogether, OpenACS 5.8.0 differs from OpenACS 5.7.0 in more than 18.000 commits.

Many thanks to all the help!

[Release Announcement](#), [ChangeLog](#), [Download](#)

OpenACS 5.7.0 final released Jul 17, 2011

You can [download it here](#). The kernel type and attribute creation functions will now be as metadata, as has been done in the content repository functions to create CR types. In addition to this, the release primarily fixes bugs.

.LRN 2.5.0 has been released Sep 27, 2009

TELKOMNIKA

The screenshot displays the TELKOMNIKA website interface. At the top left is the journal's logo, followed by the title "TELKOMNIKA" and subtitle "Telecommunication Computing Electronics and Control". It notes accreditation "A" by the Directorate General of Higher Education and SCOPUS indexing. A search bar is located at the top right. A navigation menu on the left lists various site sections. The main content area includes news about Scopus acceptance and impact factors, a list of sponsors, and a detailed description of the journal. A blue banner at the bottom of the main content area provides contact information and accreditation details. A green navigation bar contains links for Home, About, Login, Register, Search, Current, Archives, and Announcements. The page content includes a breadcrumb trail, the journal title, a detailed description, and a small accreditation image. On the right side, there are three panels: "OPEN JOURNAL SYSTEMS" with a user login form, "NOTIFICATIONS" with view/subscribe options, and "JOURNAL CONTENT" with a search box.

International Journal of Power Electronics and Drive Systems (IJPEDS)

International Journal of Power Electronics and Drive Systems (IJPEDS, ISSN: 2088-8694, a [SCOPUS](#) indexed Journal) is the official publication of the Institute of Advanced Engineering and Science (IAES). The scope of the journal includes all issues in the field of Power Electronics and drive systems. Included are techniques for advanced power semiconductor devices, control in power electronics, low and high power converters (inverters, converters, controlled and uncontrolled rectifiers), Control algorithms and techniques applied to power electronics, electromagnetic and thermal performance of electronic power converters and inverters, power quality and utility applications, renewable energy, electric machines, modelling, simulation, analysis, design and implementations of the application of power circuit components (power semiconductors, inductors, high frequency transformers, capacitors), EMI/EMC considerations, power devices and components, sensors, integration and packaging, applications in motor drives, wind energy systems, solar, battery chargers, UPS and hybrid systems and other applications.

Bagaimana mendapatkan editors berkualitas?

- Secara bertahap, upayakan agar sebaran penulis meluas
- **Call for Editors**, and lakukan seleksi.

Bagaimana agar Editor bisa **bahagia** mengelola jurnal?

- Paham & bisa memanfaatkan TOOL, misal Open Journal System (OJS)
- Ada artikel bagus yang dikirim
- Reputasinya dikenal & dianggap memiliki kelebihan oleh masyarakat akademik
- Menambah relasi/networking (karena seringnya berkorespondensi)
-

Bagaimana agar **Editor** memiliki kelayakan “standing” yang mapan?

- Editor harus secara kontinue menulis & mempublikasi artikel
- Mau belajar melihat peta perjurnalan di Indonesia dan dunia
- Editor mau terus belajar scr mandiri
- Editor seharusnya memahami databases publikasi internasional
- Editor menjalin relasi dengan banyak experts di LN

3. Penyebaran informasi & Call for Papers?

- Penyebaran Informasi & Call for Papers adalah *the main key* di dalam pengembangan sebuah jurnal.
 - Leaflet (tidak harus fisik), bisa online dan disebarakan melalui berbagai media (milist dll)
 - **Collect emails** adalah hal sangat penting
- Penyebaran Informasi & Call for Papers dilakukan melalui berbagai cara dan media yang mungkin
 - Membuat special section
 - **Ourglocal.com**
 - **Researchbib.com**
 - **WikiCFP**
 - dll

Call for papers di **OurGlocal.com**

The screenshot shows the homepage of OurGlocal.com. At the top left is the logo for Academic Resources with the URL ourGlocal.com. A large banner in the top right reads "Call for papers melalui OurGlocal.com". Below this is a navigation menu with buttons for Home, Post Event, 2014 Event, 2015 Event, 2016 Event, By Deadline, By Topic, By Country, and Contact. A section for "Our Sponsors" lists Online Store, Galaxy S3 Halterung, CSTAW 2014, and 3rd ISBSS ICSOB-indu. A search bar contains the text "Enter Key Words" and buttons for "Search CFP" and "Advanced Search".

CALL FOR PAPERS

2nd Special Section on “Robotics”

The Theme: In recently, robots were initially developed for dirty, dull, and dangerous applications, they has begun to move towards into everyday life, from entertainment and exhibition to health care. In addition, robots can be used for more commonplace tasks such as janitorial work. Moreover, robots could free a large number of people from hazardous situations, essentially allowing them to be used as replacements for human beings. Many of the applications being pursued by AI robotics researchers are already fulfilling that potential. Regardless of application, robots will require more rather than less intelligence, and will thereby have a significant impact on our society in the future as technology expands to new horizons. This special section aim is to collect contributions that offer a systematic approach to design, simulate, develop, control and apply of robotics in many applications. This topic is interdisciplinary and spans fundamentally enabling research as well as large-scale deployments and their formal evaluation.

Topics of interest of this Special Section include, but are not limited to:

SIMULATION AND DESIGN OF ROBOTICS

- Computer Vision
- Control
- Distributed Sensing
- Experiments
- Hybrid Robotic Control
- Modelling, Programming and Identification
- Path Planning
- Robot Design and Architecture
- Robot Sensing and Data Fusion
- Robot Simulation

4. Membuat Call for Editors/Reviewers

Call For Editors: Bulletin of Electrical Engineering and Informatics

All research articles in Bulletin of Electrical Engineering and Informatics (BEEI) ISSN: 2089-3191, e-ISSN: 2302-9285 undergo rigorous peer review, based on initial editorial screening and refereeing by at least two anonymous referees.

High quality scholarly communication of this nature requires the collaborative efforts of academics. The journal is professionally managed by a team of editors drawn from the academic and practitioner community for fixed periods, and a journal administrator. Hence BEEI is calling for academics with sound academic background and who want to leave their footprints on the sand of time to serve as editors.

The primary responsibility of an editor will be to edit manuscripts after they have been peer-reviewed. The editor will ensure that revisions have been completed if requested by peer reviewers. The editor will also make sure that manuscripts are grammatically correct, consistent in style, readable, and free of plagiarism or other scientific misconduct.

Applicants must have significant publishing his/her specific field of research and reviewing experience. Submit your short bio (included your Scopus author ID), background (Educations, Researches) and some information to review to EEI@journal.uad.ac.id cc: TEI@journal.uad.ac.id. Due to the high volume of applications, only accepted applicants will be contacted via email. We look forward to your constant support and initiative in improving the quality of BEEI.

Keep your eyes to BEEI, and we hope that BEEI will grow into a world-best international journal. We will continue to strengthen BEEI as a helpful research open source for scholars, researchers and students.

Thank you,

Best Regards,
T. Sutikno
Editor-in-Chief

5. Pengindeks Jurnal

Portal Elektronik Nasional, misal:

- SCOPUS (Elsevier)
- Web of Science (Thomson Reuters)

5a. Pengindekan Jurnal: di DOAJ

Selection Criteria (<http://www.doaj.org/about#criteria>)

Coverage: Subject: all scientific and scholarly subjects are covered

- ✓ Types of resource: scientific and scholarly periodicals that publish research or review papers in full text.
- ✓ Acceptable sources: academic, government, commercial, non-profit private sources are all acceptable.
- ✓ Level: the target group for included journals should primarily be researchers.
- ✓ Content: a substantive part of the journal should consist of research papers. All content should be available in full text.
- ✓ All languages

Access:

- ✓ All content freely available.
- ✓ Registration: **Free** user registration online is acceptable.
- ✓ Open Access without delay (e.g. no embargo period).

Quality: For a journal to be included it should exercise quality control on submitted papers through an editor, editorial board and/or a peer-review system.

Periodical: The journal should have an ISSN (International Standard Serial Number, for information see <http://www.issn.org>). Online journals should have an eISSN.

5b. Pengindekan Jurnal: di Scopus

Scopus selection criteria: Subject experts review titles using both quantitative and qualitative measures and the selection is partly based on sample documents from the title. The criteria that will be used in the review process are grouped in five main categories: **Journal Policy, Content, Journal Standing, Regularity and Online Availability.**

Category	Criteria
Journal Policy	Convincing “yang meyakinkan” editorial policy Type of peer review Diversity in geographical distribution of editors Diversity in geographical distribution of authors
Content	Academic contribution to the field Clarity of abstracts Quality and conformity with stated aims and scope Readability of articles
Journal Standing	Citedness of journal articles in Scopus Editor standing
Regularity	No delay in the publication schedule
Online Availability	Content available online English language journal home page available Quality of journal home page

Publication Ethics & Publication Malpractice

Publication malpractice is an unfortunate occurrence in the world of scientific literature. It happens in all subject areas and in all jurisdictions, and few journal or books series are immune. The prevention of publication malpractice is the responsibility of every author, editor, reviewer, publisher and institution.

Scopus requires that every indexed journal and book publish a clear and consistent statement of publication ethics and publication malpractice, and that each and every publisher will be held accountable for the performance and compliance with this policy for every title in its portfolio. Scopus mandates no specific wording of a publication ethics and publication malpractice statement, but notes that:

Major publishers already publish comprehensive statements of compliance on their web sites, see for example [Elsevier](#).

A number of industry organisations, notably the Committee on Publication Ethics ([COPE](#)), the World Association of Medical Editors ([WAME](#)), the International Committee of Medical Journal Editors ([ICMJE](#)), and Consolidated Standards Of Reporting Trials ([Consort](#)) publish comprehensive guidelines and advice which can be readily adopted and adapted by all journals and publishers.

For more information on the importance of Ethics in Research and Publication, see also: <http://www.ethics.elsevier.com/> and this [Webinar](#).

Strategi indeksasi jurnal di pengindeks internasional bereputasi “Scopus” ?

Bagaimana memulai?

1. Persiapan:

- Tim pengelola inti (editorial, IT support team, Managemen & business, ...). The most important → **mindset & wawasan** pengelola
- Penamaan, diskripsi jurnal, aim & scope ..?
- Website: *single platform* (OJS saja) / *multi platform* (OJS dan website)?
- issue perdana?
- CrossRef ?

2. Running (keberlanjutan & kesinambungan):

- Penyebaran informasi dan Call for Papers?
- Terbit tepat waktu
- Call for Reviewers (sekaligus sbg call for papers)?

3. Improving:

- Editor Utama → HARUS totalitas terjun & *tunning* proporsi/kualitas Gambar & Tabel, style & layout di semua artikel, jika diperlukan upgrade “*abstract*”.
- Standing Editor? → secara bertahap kualitas dan sebaran ditingkatkan
- Peningkatan kualitas artikel di *issues* selanjutnya (after always terbit tepat waktu)
- Indexing

Scopus

TITLE SUGGESTION

Help

Title suggestion agreement

We ask you to provide full title detail information: all questions in the suggestion form are mandatory, and you will also be required to upload sample articles in order to complete the suggestion.

If you are not the publisher or editor of the title, or otherwise in a position to provide all the information required, we recommend that you contact the publisher of the title and request that the publisher complete the suggestion form.

Agreement

- I am aware of the general guidelines that Scopus uses to select titles.

Scopus only allows titles to be evaluated when they meet the following [minimum criteria](#):

- The title should publish peer reviewed content.
- The title should be published on a regular basis (i.e. have an ISSN that has been registered with the ISSN International Centre). To register an ISSN, please visit [this](#) page.
- The title should have English language abstracts and article titles.
- The title should have references in Roman script.
- The title should have a publication ethics and publication malpractice statement.

OK

Pengindekan Jurnal di Scopus (cont.)

Please read carefully before completing this form

- Please check the [Scopus title list](#) to determine whether the title you wish to suggest is already in Scopus. Please be aware that active Medline-sourced titles (see column M in the title list) may also be suggested for full Scopus coverage.
- New titles are reviewed on a continuous basis by the independent Scopus [Content Selection & Advisory Board](#) (CSAB).
- We strive to evaluate new title suggestions as quickly as possible, however, please allow for several months up to one year for the review process to be completed.
- The CSAB uses sample documents of published content to evaluate the quality of a title. We recommend that a title has published for at least two years before it is suggested for inclusion in Scopus and we may reject a title suggestion for review if the publication history is too short to review the title.
- You will be asked to provide sample PDFs as a final step in the title suggestion process. **It is not possible to complete the title suggestion process without uploading PDFs.**
- Be aware that the evaluation of a title is not influenced by the number of times it is suggested. Multiple submissions of the same title will only delay the review process.
- Review of your title suggestion does not guarantee selection of the title.
- Titles lacking a dedicated website with information relevant for review will not be considered for evaluation.

If you have any questions about the evaluation process, you can contact us at titlesuggestion@scopus.com.

Suggestion - Title suggestion - Upload documents

The assessment of the actual content plays an important role in the evaluation of suggested titles. Therefore, we ask you to upload the three (3) most recent issues. If that is not possible, please upload nine (9) sample articles and a table of contents from the most recent issue(s). The uploaded documents must be in PDF or Microsoft Word format. The following conditions apply:

- Sample articles do need to contain an abstract of the article. The availability of English-language abstracts is a minimum criterion to be indexed in Scopus. Titles that do not have English abstracts may not be acceptable for review.
- If you cannot upload complete issues, please select 9 sample articles from the most recent issues and include at least one table of contents of a complete issue. The maximum number of documents that you can upload is 10.
- Only submit research articles or review articles as sample articles. Other document types such as book reviews or editorials are not considered as sample articles.
- The presence of either the 3 most recent issues, or the 9 most recent articles plus a table of contents file, is a minimum requirement in order for a title to be reviewed for Scopus indexing.
- **Please do not send us any issues by postal mail.** We only accept electronically submitted issues or articles.
- The maximum size of each document that you upload is 10MB.

You will receive an automatic e-mail confirmation within 24 hours of submission. If you do not receive an e-mail confirmation, please check your spam filter.

In case you have any questions, you can contact us at titlesuggestion@scopus.com.

I am having technical difficulties uploading documents and will contact the Scopus team at titlesuggestion@scopus.com

Subject: RE: Thank you for your title suggestion to Scopus "IAES International Journal of Robotics and Automation (IJRA)"

To: "iaes.ijra@gmail.com" <iaes.ijra@gmail.com>

Cc:

Dear Sir/Madam,

Our ref: E339855FE8E63808

Thank you for your email. The title "*IAES International Journal of Robotics and Automation*" is in the last stages of processing and will soon be released to the independent Scopus Content Selection and Advisory Board (CSAB) for evaluation and a final decision. As soon as this analysis is complete you will receive an email with the decision and the reviewer's comments.

For your information, please find herewith a link to the status update mentioned the tracking ID which is noted as reference.

<http://suggestor.step.scopus.com/progressTracker/index.cfm?>

We appreciate your patience at this time.

With kind regards,

Karin Jongeneelen

Title: TELKOMNIKA Telecommunication, Computing, Electronics and Control

ISSN / E-ISSN: 1693-6930

Publisher: Universitas Ahmad Dahlan

Dear Mr. Tole Sutikno,

The title mentioned above has been evaluated for inclusion in Scopus by the Content Selection & Advisory Board (CSAB). The review of this title is now complete and the CSAB has advised that the title has been **rejected** and will not be included in Scopus at the present time. For your information, the reviewer comments are copied below:

The journal may serve an important national purpose, however, because of **its localized approach** it fails to fulfill the requirements for inclusion in an international database such as Scopus.

If in the future these comments are addressed, you may decide to submit a new application at any time after the following date: **March 2013**.

Yours sincerely,
The Scopus Team

First Evaluation

Subject: RE: Feedback concerning title "TELKOMNIKA" suggested for Scopus.

To: Tole Sutikno <tole@ee.uad.ac.id>

Dear Tole Sutikno,

Thank you for your email. Our team requested that you apply on **March '13** hoping that by then the title would have fulfilled our criteria. I have just responded to another email of yours detailing where the title **fails our ethics criteria**. If you require further information please see: <http://www.info.sciverse.com/scopus/scopus-in-detail/content-selection>

Best regards,

Lawrence Jaskaran

Dear Tole Sutikno,

The title mentioned above has been evaluated for inclusion in Scopus by the Content Selection & Advisory Board (CSAB). The review of this title is now complete and the CSAB has advised that **the title will be accepted for inclusion in Scopus**. For your information, the reviewer comments are copied below:

The journal is improved **but still it marginally fulfills the criteria** for inclusion in Scopus. The **diversity of editorial board members** is partly in line with the requirements for inclusion in an international database. **The citedness of the journal should also be improved.**

If necessary, our Source Collection Management department will contact the publisher in order to set up the content feed for Scopus. The title will be loaded in Scopus as soon as we have access to the title and the content has been processed for indexing. At this moment, there is no further action required from your end.

Yours sincerely,

Scopus Title Evaluation Support

Conclusion Remarks

- Editor-in-Chief, Managing Editor dst ... seharusnya menaikkan reputasi publikasinya di jurnal terindeks **Scopus dan/atau Web of Science**
- Kita seharusnya menerbitkan jurnal in **English** → memudahkan mendapatkan **Authors, Reviewers and Editors**
- Semakin **spesifik** sebuah jurnal, peluang untuk terindeks Scopus makin tinggi. Contoh: IJPEDES lebih mudah & cepat terindeks Scopus dibandingkan TELKOMNIKA TCEC dan IJECE
- Editors memiliki **cakrawala pandang** yang memadai (& terus mengikuti perkembangan jurnal2 internas) untuk pengembangan jurnal yang dikelola
- Penyajian **informasi & Promosi** → dilakukan terus-menerus
- Pengembangan **TOOL** pengelolaan jurnal
- Call for papers → dilakukan terus-menerus

Thank you
